## COVID19 AND BGA MEDICAL REQUIREMENTS

No access to GP and AME services associated with COVID19 restrictions will result in some pilots and instructors not meeting the published BGA medical requirements.

During 2020, where pilots and instructors using BGA medical requirements have not experienced a reduction in medical fitness, the medical requirement validity periods referred to in the publication [BGA Medical Requirements](#) may be extended by 12 months.

Pilots and instructors who use this alleviation are advised to complete the following declaration and retain a copy with their records.

**Please note** that this only applies to BGA medical requirements. Please refer to CAA exemptions for class 2 and LAPL medical certificate expiry alleviations.

A handwritten signature in black ink, appearing to be "Pete Stratten", written over a horizontal line.

Pete Stratten  
Chief Executive

## Declaration

I have not experienced a reduction in medical fitness that would preclude me from extending the validity period associated with BGA medical standards as described above.
